**Application for Software Engineering/Developers Internship.**

Dear Hiring Manager,

I am writing to express my interest in Software Engineering, Programmers, or any related field for an internship at RunCloud. I am pursuing a Bachelor's in Computer Science (Software Engineering) at Universiti Malaysia Pahang Al-Sultan Abdullah (UMPSA). I am eager to apply the knowledge I gained through my coursework and projects in the real world.

Throughout my studies, I have developed a strong foundation in programming languages such as JavaScript, HTML, PHP, and TypeScript. I have also gained hands-on experience with frameworks like Next.js and Laravel and have worked with databases such as MongoDB, Laragon, and MySQL. While I understand that my current skills and experiences may not fully align with all of RunCloud's requirements, I am highly motivated and eager to learn. I am confident in my ability to quickly adapt to new technologies, languages, and techniques to contribute effectively during my internship.

I am particularly interested in joining RunCloud because of your commitment to innovation, collaboration, and positive work culture. My technical skills and passion for problem-solving would allow me to contribute meaningfully to your projects. I am excited to learn from experienced professionals and gain valuable insight into the software development lifecycle.

I am available for a 5-month internship from March 10 until August 22, 2025, and would be excited to contribute to your team and further develop my skills in a dynamic and challenging environment. I look forward to discussing how my background, skills, and ambitions align with the needs of your team. Thank you for considering my application. I can be reached at 0199707071 or via email at [adrianaafandi@gmail.com](mailto:adrianaafandi@gmail.com).

I look forward to hear from you.

Sincerely,  
  
Nurul Adriana Binti Mohammad Afandi
